MEMORANDUM FOR: Technical Advisor to the Director

SUBJECT: Printer Processor (Model RLPP-101)

25X1

1. After canvassing other NPIC components, the following divisions expressed interest in the subject equipment:

PAG needs six printer processors but has no money to fund them this fiscal year.

CSD would like one printer processor but likewise has no funds available until next fiscal year.

SPAD is interested and may want one processor during the next fiscal year.

2. In summary, as many as eight more units may be needed in addition to the five that IAD has requested.

Colonel, USAF

Assistant for Plans and Development, NPIC

MEMORANDUM FOR: Assistant For Plans and Development, NPIC

SUBJECT : Printer Processors (Model RIPP-101)

25X1

After our meeting this morning with on this subject he asked that I contact you regarding additional orders from other NPIC components for this item of equipment. Determining the additional number should be a relatively easy process. If you have a Technical Development Committee meeting scheduled during the coming week perhaps this would be a good forum to raise the question. However, in any event whether we do it through the TDC or by canvassing the individual divisions and staffs I think its incumbent on us to get some answers quickly so that we don't delay IAD's requisitions any longer that is absolutely necessary. If you like I can be present at the TDC and discuss the results of my own investigation into the RIPP equipment and IAD's requisitions for these items.
